## MARINE

The fifth round-the-Horn vessel to make this port this month, the American bark Foohng Suey, arrived yesterday morning, having been off the harbor before midnight the day pre-She comes from New York and made the passage in 142 days, and the harbor is livelier than it has been for a long time with windjammers.

On April 2 the American ship John Ena, Captain Madsen, arrived from Norfolk with coal for the Navy; American ship Dirigo and Russian ship Dundee, from Baltimore and Leith, respectively, came in on Thursday; on Friday the British ship Celtic Monarch arrived from Hamburg, and yesterday the Foohng Suey showed up from New York.

The presence of these five big ves- ports. sels in the harbor means the circulation of considerable money on the waterfront: the waterfront ever welcomes a large sailing vessel with several times the enthusiasm with which a steamship is greeted.

The John Ena, Dirigo, Dundee, Celtic Monarch and Foohng Suey will spend, during the two or three weeks they are in port, altogether \$25,000, or more, the wages paid to the crews amounting to at least a third of the sum named. Tomorrow the crews of the Dirigo and the Foohng Suey will be paid off before United States Shipping Commissioner H. N. Almy.

It is worth mention that no one of these five vessels, recently passing around the Horn, saw anything of the ship Bangalore, nor did they hear anything of the lost American ship Arthur Sewall.

The Bangalore is today out 179 days rom Norfolk with coal for the Navy here. Reinsurance in San Francisco is quoted on her at 10 per cent. She is the last of the coal fleet for the Navy and should show up at any time. None of the five vessels above referred to have made voyages as long as that now figured by the Bangalore, hence there is naturally a great deal of way ports, April 18.-1 horse, 1 pup, anxiety, when the fate of the Arthur 2 bags coin, 8 crates celery, 10 bags Sewall is considered.

has been taking fire in Cavite, Guam and Honolulu is enough to excite anxiety for any vessel carrying the fine steaming fuel.

The bark Foohng Suey, Captain Banfield, which arrived yesterday, like her predecessors this month, has little of adventure to report. She, like the rest, had her share of baffling Duke, Mrs. London, C. A. Kupferberg, winds, tropic calms and severe storms, but nothing in any way of a serious nature and nothing which threatened the safety of ship or crew. She brought 1700 tons of general cargo and docked in the Bishop slip.

The John Ena is still at the Naval wharf, high up out of the water, and will soon be loading sugar for New York. Nearby is the Dirigo; she will sail probably on the last day of the month or the first day of May for New York. The Dundee is at the Hackfeld wharf and the Celtic Monarch in Sorenson's slip.

When it comes to signing crews for these vessels there is likely to be some excitement. The crews of the five windjammers represent one hundred men, and a good proportion of this number will want to go coastwise from here at \$40 per month, instead of working a 15,000-mile stunt around the Horn at only about half that

Aboard the Dundee a good number of her crew will want to stay, and the Celtic Monarch is sure of keeping at least her apprentices, for they are young chaps with futures being moulded and appreciative of the advantages they receive on so good a

Of the five round-the-Horn boats named, there are three Americans, a Britisher and a Russian, Seldom are three American deep-water boats at one time seen in this harbor nowa- 3 children, Geo. Ii Brown, Elison Jor-

CAPTAIN POTTER OF THE BARKENTINE CORONADO.

There are few better informed skippers than Captain Potter of the barker tine Coronado, which sailed recently for San Francisco. He is one of the smal est men, physically, who command ships trading here, but his experience an capability are by no means reckoned by his stature. When hardly more tha a boy, he found occasion to answer his country's call as master of a steam packet in Eastern waters that did good service for the Union, and at that tim he enjoyed the distinction of being the youngest commander in the America

### A SILLY SAYING. "It is a common but silly opin

ion prevailing among a cer-

cific Sugar Mill are in the city.

tain class of people that the worse a remedy tastes, smells cr hurts, the more efficacious it is." So says a well-known English physician. He further adds: "For example, let us consider cod liver oil. As it is extracted from the fish this oil is so offensive to the taste and smell that many cannot use it at all, ne matter how badly they need it. Yet cod liver oil is one of the most valuable drugs in the world and it is the greatest pity that we have not thus far been able to free it from those peculiarities which so seriously interfere with its usefulness." This was written years ago; the work of civilizing and redeeming it has since been triumphantly accomplished; and as a leading ingredient in the remedy called WAMPOLE'S PREPARATION the oil retains all its wonderful curative properties with no bad smell or taste whatever. It is palatable as honey and contains all the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophos phites and Extracts of Malt and Wild Cherry; creating a medicine of unequaled power for the diseases most prevalent and fatal among men, women and children. There is no other remedy to compare with it. It increases the digestive power of the stomach and in Blood Impurities, Throat and Lung Troubles, Nervous Dyspepsia and Scrofulous Affections it gives quick and certain relief and cure. Dr. G. C. Shannon, of Canada, says: "I shall continue its use with, am sure, great advantage to my patients and satisfaction to myself." Has all the virtues of rod liver oil; none of its faults. You may trust it fully; it cannot Mr. Dunshee, A. H. Vierra, W. C. disuppoint you At all chemists
